

Meta-Assessment Committee

About the Committee

The Programmatic Meta-Assessment Committee is dedicated to evaluating and enhancing the meta-assessment process for both educational programs and administrative units at our institution. This committee ensures the effectiveness, quality, and impact of assessment methodologies, criteria, and rubrics used across academic and administrative areas. By continuously reviewing and refining assessment practices, the committee supports institutional accountability, accreditation efforts, and continuous improvement.

Committee Charge

The committee is responsible for:

- Reviewing and improving assessment processes to enhance programmatic and institutional effectiveness.
- Evaluating assessment rubrics and methodologies to ensure alignment with institutional goals and accreditation standards.
- Providing recommendations for refining student learning and administrative outcomes based on data-driven insights.
- Facilitating a culture of continuous improvement through structured assessment feedback and reporting.
